EXPERIENCE

CAPITAL ONE

July 2022 - Present

Senior Associate UX Designer

- Owned end-to-end design of a net-new small business card onboarding MVP that drove an **88% increase in overall task completion**, using early product metrics to identify and resolve friction before scaling the experience to **~34M Discover customers**; led cross-functional workshops across Product, Design, Technology, Marketing, and Business Analytics to define a holistic, future-state account setup vision, shaping the information architecture for personalized experiences.
- Translated ambiguous stakeholder feedback to redesign servicing and payment-support workflows in partnership with Melio, **reducing third-party call transfers by 64%** and **driving \$1.7M in additional purchase volume** through improved routing logic and customer support experiences.
- Led cross-functional discovery to launch a unified business dashboard, delivering products, insights, and data to **500K small business card customers within the first 30 days**.
- Designed and launched a fraud detection and mitigation workflow that **saved \$290K within the first 4 weeks** of pilot release, improving risk management processes, operational response efficiency, and customer trust. Mentioned in [NY Times article](#).
- Drove design direction of a business profile page to **12.4K customers**, giving small business card and bank customers the ability to access their aggregated business information independent of their personal banking details
- Surfaced and solved for operational friction points in the service design customer journey for women at the nonprofit shelter Olaiya's Cradle, contributing to Capital One's \$50K funding initiative that **helped close a \$300K budget gap and sustain the program's future**.

MILKINSIDE

May 2021 - May 2022

Experience designer

- Led UX strategy and product design** efforts for clients including Google, Oppo, and Lashify. Delivered 20+ concept screens to each client and received feedback
- Combined **motion design and AI-powered UX thinking** to craft intuitive, impactful experiences aligned with user and business goals.
- Delivered user-centric solutions across **marketing websites, OS design systems, and B2C communications**.

FIDELITY INVESTMENTS

May 2019 - Aug 2019

UX Designer/Software Developer Intern

- Built and designed an API service** for third-party money transfers; integrated with front-end services.
- Crafted web components and expanded the brand design system** to elevate user experience and support seamless integration with Akoya's open finance platform.

HCI RESEARCH LAB FOR HEALTH AND SUSTAINABILITY AT RUTGERS UNIVERSITY

Feb 2019 - May 2019
