Capital One, Associate Experience Designer

July 2022 - Present | Full-time

Small Business Card

- Designed and rolled out a standardized onboarding process, enabling enterprise-wide scalability and **supporting the migration of ~34M Discover customers into Capital One** ecosystems post-acquisition.
- Redesigned the call center experience for a Melio-powered payment solution, **reducing third-party call transfers by 64%** and **driving \$1.7M in additional purchase volume**.
- Partnered with technical and product teams to launch a unified business dashboard, delivering products, insights, and data to **500K small business card customers within the first 30 days**.

Small Business Bank

- Led the design of a fraud prevention workflow, leading to **\$290k saved** in the first 4 weeks of pilot launch and improved user trust. Mentioned in [NY Times article](#).
- Built and launched a business profile page to **12.4k customers**, giving small business card and bank customers the ability to access their aggregated business information independent of their personal banking details

Probono Service Design program

- Partnered with design peers to improve the service design customer journey for women at the nonprofit shelter Olaiya's Cradle, contributing to Capital One's \$50K funding initiative that **helped close a \$300K budget gap and sustain the program's future**.

Milkinside, Experience Designer

May 2021 - May 2022 | Full-time

- Led UX strategy and product design** efforts for clients including Google, Oppo, and Lashify.
- Combined **motion design and AI-powered UX thinking** to craft intuitive, impactful experiences aligned with user and business goals.
- Delivered user-centric solutions across **marketing websites, OS design systems, and B2C communications**.

Akoya, Associate Product Designer

Sept 2020 - Dec 2020 | Co-op

- Developed scalable design and documentation standards to improve cross-functional understanding of wireframes and mockups, **enabling more efficient collaboration with non-design teams**.

Fidelity Investments, UX Designer/Software Developer Intern

May 2019 - Aug 2019 | Internship

- Built and deployed a secure RESTful API** for third-party money transfers using Dropwizard; integrated with front-end services.
- Crafted web components and expanded the brand design system to elevate user experience and support seamless integration with Akoya's open finance platform.

HCI Lab for Health and Sustainability at Rutgers University, UX Designer

Feb 2019 - May 2019 | Research

- Designed a patient interface using leukemia data to visualize treatment outcomes, addressing challenges in **empathy, accuracy, and unbiased communication** to support informed decisions.

Rutgers University, New Brunswick

Aug 2017 - May 2021
